To Whom It May Concern:

We have had the pleasure of knowing Buddy Lauer and his family for approximately 8 years. We have found Buddy to be a man of honor and integrity both personally and professionally.

In 1994 we retained Buddy L. & Sons for a build out at our business. They constructed a reception area, offices and a lunchroom. We were very pleased with the results of the project. It was completed on time and within our budget guidelines.

When we decided to build our dream home in Wailuku Heights, there was no question as to who the contractor would be. We are nearing the final stages of the project and feel that we will be very happy with the final result. We have found Buddy to have a complete knowledge of every aspect involved in fine home building including an outstanding attention to detail. He has been very easy to work with and has things done in a timely fashion.

We do not hesitate in recommending Buddy L. & Sons contractors for any project.

Sincerely,

Lloyd & Kathryn Wiens
