

9-1-2014

Buddy L & Sons built our home in Maui Meadows in 2000-2001. It was our first experience in building a new home, but we also had to connect it with an existing home on the property. Buddy Lauer, Mike Lauer & Danny Lauer were so helpful, professional, honest, hard workers and they truly guided us through the process. Their workers were respectful of our property, worked hard, showed up on time, worked extra when we were trying to meet deadlines for the next sub-contractor to come in. They kept the construction site clean & organized, Mike & Buddy helped us stay on budget. We sold that home in February 2013, we NEVER had one single issue with the construction. It held up in earthquakes, storms, high winds, etc.. Unbelievable quality! Most people dread building a new home, but it really was a fabulous experience for us. Over the years, we got to know the entire Lauer ohana and they are the real deal. Fast forward 14 years and we are building our SECOND home, this time in Wailea, with strict rules & regulations. Without a thought, we called Mike Lauer and asked him to build our home AGAIN. We did not BID out our home, we did not call other contractors, we called BUDDY L & SONS. My husband & I are extremely particular and I can honestly say that Buddy L & Sons have met all of our requirements. They constantly communicate with us, keep us posted on things and are great at dealing with us!!! Building a home can be very stressful on couples and families, but the Lauer's are a family owned business and they understand how to facilitate the business, construction and keep us happy too!! We cannot say enough great things about this family owned company on Maui!
