Buddy L & Sons just finished building a beautiful home for us on Hoolapa Place in the Kilohana Waena subdivision. Not only would we recommend them to anyone who wants a quality home, we would have them build another home for us. That is how you tell if a business has quality workmanship and integrity..... return clients. This is the third construction project we have done, the other two in California. We were prepared for all of the issues that come with building a home. Buddy and Michael went above and beyond to make sure everything was built exactly how we wanted..
