Buddy L & Sons Contractors: I can recommend this company very enthusiastically! Buddy Lauer built our home in Wailea in 2000 and built out our office in Kihei in 2008. Both projects turned out beautifully, better than we could have imagined. Our home is amazingly beautiful and well built, and the process was relatively painless in spite of the endless decisions to be made; Buddy walked me through each step and was always available by phone to talk things over and guide me. I couldn't have asked for a better General Contractor. Until today, I can call Buddy or his son Michael to help with any thing I need, and I trust that they will guide me with the highest degree of professionalism and integrity. The work ethic and compassion that this company embraces is refreshing and sadly somewhat rare to be found these days.

Cheri E.
